

Pool Admissions Policy

Trafford Community Leisure Trust - November 2008

A parent or responsible adult (over the age of 18) must accompany children, who are under the age of 8. The responsible adult or parent may be responsible for two children under the age of 8 when using the centre/swimming pools. A parent under the age of 18 is classed as a responsible adult.

- Children under the age of 8 years may use the changing room of the opposite gender.
- Customers are requested to check water depth signs before using the pools and to not swim out of their depth. Non-swimmers must confine themselves to the specified areas of the main pool (A non-swimmer is someone who cannot swim 25 metres unaided and tread water for 30 seconds).
- Diving is ONLY allowed in the deep end of the large swimming pool (No diving permitted at Partington Leisure Centre).
- No inappropriate swimwear or swimming suits that finish below the knee may be worn, unless such clothing is tight fitting and present no risk to safety.
- Babies must not be submerged in the pool. Babies should not be left on pool side in prams or car seats
- In the swimming pool and changing areas, please be careful as floors may be wet.
- Always listen to the lifeguards and follow their instructions.
- Please do not wear diving masks, snorkels, flippers or glass-lensed spectacles.
- The use of cameras and video equipment is prohibited except with the prior permission of the Duty Manager.
- Please note all timetables are subject to change at short notice.
- The Duty Manager has the right to refuse admission to any person.
- No violence or aggressive behavior towards any member of Staff will be tolerated.
- There will be no issue of refunds if customers have to evacuate due to fire drill, false alarm, or an actual emergency.

Help keep our Pool water clean. The water is tested regularly each day for its chlorine content, pH and temperature to make sure it is in accordance with national guidelines. More comprehensive weekly and monthly tests are also carried out to ensure your safety and enjoyment. The water temperature is maintained at between 29 and 31 degrees to ensure the maximum water quality and bather comfort. The water in the Pool is constantly filtered and disinfected and the filters are cleaned at least once per week. The Pool is topped up with fresh water on an on going basis.

You can help improve the water in which you swim by:

- Showering before you swim
- Babies should wear proper baby swimwear or swimming nappies
- Always use the toilet before you swim and ensure children do to
- Anyone who has suffered from diarrhoea in the last two weeks should not swim

Bernie Jones
