Advanced Coaching Centre Carrington

Would you like to improve your skills? Have you been released by a professional club or think you are ready for a trial? Do you just want to play football at the highest level your ability will allow?

The Advanced Coaching Course is a 6 week invitational training course for players of all abilities from age 5 to 16. The session is coached by experienced FA qualified coaches who are also qualified scouts putting the players in a great position to go for a trial with a professional or junior club and help and support if released from either. After all the session is supported by the Professional Footballers Association.

For more details and an invitation please contact Andy Hilton, Football Development Officer on any of the contact details.
